Policy Cosmewax

MISSION

For over 60 years, Cosmewax has been offering the most effective and highest-quality cosmetic, health and personal care products, providing value and helping our clients succeed worldwide.
We ensure that our processes, products, services and employees generate value, satisfy the client and comply with legal and other relevant requirements, as well as being environmentally friendly.

VISION

Our vision is to grow by providing innovative, safe products that will charm consumers of the world's leading cosmetics brands, offering a competitive price and excellent service to all our clients.

VALUES

Commitment, self-criticism, innovation, quality, product safety culture, improvement, caring for people and protection of the environment, including the prevention of pollution.

PEOPLE

We have committed, qualified professionals focused on running a flexible organisation adapted to the client's needs. We ensure optimal health, safety and welfare conditions for our employees.

SUSTAINABILITY

We strive to prevent pollution, minimise waste, optimise our consumption, improve efficiency and foster continuous improvement, as well as minimise our environmental impact. To achieve this, we involve all our suppliers, clients and staff.

INFORMATION SECURITY

Our commitment to information security is a cornerstone of our business. We implement rigorous policies and controls to protect sensitive data, ensuring the confidentiality, integrity and availability of information. In addition, we foster a culture of security by continuously training our employees and adopting industry best practices.

General Management is committed to complying with and maintaining an integrated management system based on continuous improvement and the following standards: ISO 9001, ISO 14001, ISO 22716, BRCGS, IFS HPC, RSPO, ISO 27001 and ISO 13485, as well as to compliance, for OTC products, with the FDA's current Current Good Manufacturing Practices (cGMP), in accordance with the applicable requirements of 21 CFR Parts 210 and 211, and to continuous improvement.
